FERTIUM AMIN22

SPECIAL AMINO ACID FERTILIZER

FERTIUM AMIN 22 is made up of completely assimilable left-handed amino acids. It acts on the development, flowering and fruit set and favors the recovery of weakened crops. Stimulates root development and the microbial flora of the soil, increasing its fertility. Unlocks soil trace elements, facilitating their absorption and assimilation, as well as increasing organic matter levels. It favors the response of plants to any stress situation, whether due to biotic or abiotic conditions: temperature, humidity, salinity, pests, diseases, etc., favoring the recovery of weakened crops. It allows high yields to be obtained and

	Free Amino acids	Total Nitrogen (N)	pH
AMIN 22	22% (26,4%)	8% (9,6%)	5,5
Aminogram: Ala, Arg, Asp, Gly, Glu, Hyp, His, Ile, Leu, Lys, Met, Phe, Pro, Ser, Tyr, Thr, Val			

DOSE AND MODE OF USE

FOLIAR APPLICATION: as an energy generator and anti-stress, between 2-5 l/Ha. It can be used throughout the vegetative cycle, especially during times of stress.

IRRIGATION WATER: As a guide, between 15-20 L/Ha can be used, repeating the application during the phases of greatest energy demand of the crop.

Packaging

1L, 5L, 20L
