FERTIUM AMINOVITAL PLUS

NPK SPECIAL FERTILIZER 7-3-5 WITH AMINO ACIDS FOR FOLIAR APPLICATION

FERTIUM AMINOVITAL PLUS is a liquid foliar stimulant for complete nutrition. The presence of proteins and amino acids increases the foliar absorption of nutrients and their translocation with rapid assimilation in extensive cultivation, mixing with herbicides can be recommended, supplementing the fertilization and improving the effectiveness of herbicides. The technologies applied to the product increase adhesion and increase the contact surface, favor entry through the cuticle and increase the durability of the treatment.
